Important investment product!

Incredible plot for the construction of a 5* luxury resort hotel on the first line of the coastline of Costa Adeje, in the best tourist area of the Canary Islands, situated between the sea and the road, very flat, with a slight drop towards the ocean. We estimate that this is the last opportunity to acquire a product of these characteristics in Costa Adeje.

It is part of a partial plan for tourist use comprising only two plots with a total of 253.867 m² between them, already cleared of future road expansion or public domains. According to Adeje town planning, the plan is intended for the construction of one or two luxury resort-type hotels. It would be possible to discuss the sale of the second plot in order to acquire the two plots as a whole.

It is ideally located close to the future golf course, 10 minutes from the Abama Hotel and 15 minutes from Bahia del Duque.
