Bedrooms	2	Bathrooms	2
Floor	3		

Atlantic Homes will be a totally private urbanization of 1, 2 and 3-bedroom apartments with a swimming pool and large garden areas.

Exciting project that will be designed by the prestigious Tenerife architecture studio Makin Molowny Portela.

The facade of the building has an elegant and avant-garde design. The structure of the building is made of reinforced concrete.

The exterior carpentry consists of lacquered aluminum sliding doors, with double glazing. The double glazing with an air chamber notably reduces the exchange of hot-cold energy and external noise, ensuring good comfort inside. The entrance door to the house is made of wood on the outside and lacquered in light gray on the inside, with a security lock.

The kitchen is delivered furnished with high and low cabinets and top quality compact quartz countertop. It is equipped with a refrigerator, dishwasher, oven, induction hob and extractor hood brand Bosch or similar.

Pre-installation of air conditioning. The production of hot water is by electric boiler, supported by solar panels, which means a reduction in energy consumption and therefore, a reduction in CO2 emissions. Solar panels provide 70% coverage for heating hot water.

Installation of TV and telephone sockets in the living room and bedrooms. Satellite dish, with installation for TV, cable and digital. Installation of electric video door entry. All homes have a fiber optic connection.

The project has a large swimming pool for adults heated with a heat pump and another
